

Our Business is *Wood*—

About Our Business

WOOD & Co.
Fine Hardwood Interiors

WOOD & Co. was started spring of 1998 with a focus on fine residential and commercial hardwood interiors. The unifying theme of the business is *wood – wood interior architectural and design elements*. WOOD & Co. provides the consumer and the design and construction professional, a unique gallery to create complete wooden room interiors.

From floors, walls, ceilings, and moldings to doors, stairs, trusses, mantles and cabinets – WOOD & Co. has all the elements necessary – one-stop shopping for high-end interior wood products.

**“... FOCUS ON FINE
HARDWOOD INTERIORS”**

Everything WOOD & Co. carries is focused on the “*wooden room*”. Although we are new to Atlanta, we are closely affiliated with the over 20 year old Appalachian Lumber Company out of North Carolina. They have developed a reputation in the western Carolinas for the absolute highest quality hardwood moldings, plank flooring, and paneling at the best prices. We intend to extend that coveted reputation into the Southeast.

WOOD & Co.’s primary business objective is to compete on a value proposition that places the customer first. As such, we work directly with you to explore interior wood design options, select materials and profiles, and discuss finishes.
